EXPERIENCE

GOOGLE CLONE

Built search engine using Google's custom search API and express Js for search and routing through the app respectively.

- Express JS,

DRUMKIT VIRTUAL DRUMS

Little musical playground for drummers - Drumkit is a web application built on express js. Specific keys on keyboard binded to a sound of various drum toms.

- Express JS

TENZIES THE GAME

Browser dice mini game. Used nanoid npm for unique id for each dice. Game checks for every dice id that user clicked and returns new array of dice changing every other dices except the one that has been frozen.

- React JS

E-COMMERCE WEB PAGE

React e-commerce product page. Polished my CSS skills, and learned react hooks.

- React JS

FOOD WEBSITE

Created a food website, using MongoDB to save data that user puts in the basket, and their list of items will be saved even if they leave the site.

- Express JS, Mongo DB
